Anchorage Church, Dimond Boulevard Baptist recently commissioned it's website to become a dynamic community portal system. This could be expanded on in order to delivery on opening day :)

This could be a place to make mention of member's who may have some local news contributions or interest ... as always, remove or update this content with real information.

helpful hint is that these can be archived or revised by proper authority. You can always make a copy of an existing story / content as a template.
